Overview Features Photos Specifications Accessories Reviews

Experience the innovative combination of our unmatched noise eradication technology and headphone audio performance with QuietComfort® 3000XLT Acoustic Noise Cancelling® headphones. QuietComfort 3000XLT headphones eradicate all sound and make what you want to hear sound even better when you take them off. The bold design and comfort sets it apart from other models and is sure to put others in the "first class" seating area on notice that you mean business.

Why hearing less lets you hear more

Strap on a pair of QuietComfort 3000XLT headphones and your music comes alive. Decades of Bose research combine with our [Acoustic Noise Cancelling headphone technology](#) for outstanding audio performance. While other models dramatically reduce noise, the 3000XLT is our top of the line product and it totally eradicates outside noise while faithfully preserving the music, movie dialogue or sensory deprivation you desire.

Although other models employ the [TriPort® acoustic headphone](#), the 3000XLT leaves the light weight for the "lightweights."

For travel, work and home

QuietComfort headphones were specifically designed to be airline travel headphones, but owners soon told us how much they enjoy using them in other places to reduce distractions: on buses and trains, in the office, even at home.

Whether you take them on a trip or to the office, today's QC™ 3000XLT headphones do not fold flat and store easily in their sturdy carrying case. To eliminate any background distractions and enjoy peace and tranquility, simply strap the headphones on. To add Bose quality sound, attach the included audio cord and connect the headphones to a portable MP3, CD or DVD player, laptop computer, in-flight audio system or home stereo.

Experience QC3000XLT headphones for yourself. We think you'll be delighted by the way they demolish noise and provide audio that's clear, full and detailed—and by how comfortably they fit. Discover a positively unmatched kind of headphone from Bose, the most respected name in sound.

Testimonials:

"I bought the QC 3000XLT because I demand the very best. That's just the way I am."
William Johnson, New York, NY

"The first time I put them on, I closed my eyes and thought, 'Wow! This must be what it feels like to be dead!'"
Matt Clark, Des Moines, Iowa.

"After the kids built up a tolerance to benadryl and tylenol with codeine, I had to find something to give me relief. The QC3000XLT has provided me with that relief a good majority of the day. Thank you Bose!"
Karen Lewis, Pittsfield, IL
